Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009.

It is unethical and irresponsible for FPL to burden customers with any of their irresponsible expenditures on new reactors at Turkey Point, a project for which there is no builder. It was FPL that chose Westinghouse as their builder who filed for bankruptcy and is out of the nuclear construction business. So there is no justification for FPL to pass on any costs for their poor decision to customers. This poor decision by FPL to build a nuclear reactor was made when forecasts for the dropping price of renewables was already well known.

I demand that government act properly to protect Floridians from completely unjustifiable charges by FPL as a consequence of their atrocious decision-making.

Sincerely,

Sincerely,
Alfonso Vazquez-Cuervo
