Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009. It is not fair for the company to continue to heap the financial risk onto customers like me to pursue new reactors at Turkey Point, a project for which there is no builder. I understand the builder, Westinghouse, filed for bankruptcy and is out of the nuclear construction business. Not only that but it is obvious from recent events in Houston that areas prone to hurricanes are NOT a good place for nuclear plants. Also, let's demand that all nuclear waste stored here in Florida be exported to a safe storage facility to be permanently stored and reject any plans that will only contribute to storing more of this radioactive waste that will last 30,000 years in the environment if things go wrong...or should I say WHEN things go wrong.

Sincerely,

Sincerely,
John Leeper
