Subject: Duke Energy pricing

We have lived in Pinellas county Florida for 35 years. Most of the time we have had TECO to supply our electricity. Now we are with Duke and we are concerned that they are allowed to bill us for their failed nuclear program. How can it be reasonable to think it's fair to pay 20% + more for the same product 8 miles from where TECO services customers???? I understand business, I also understand when companies and shareholders are protected and customers pay for failure!
