

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Edward Zborowski

Electric Utility Provider : Duke

Zip Code : 32720

Category : Other

Comments : We were never told when to expect power restoration. It was really just "any day now, any day". I was set to buy solar panels, then according to the coop meeting the panels are disconnected from the house and grid, in the event of a power failure, to prevent injury to workers on the grid. There's no reason not to let the house remain powered and isolate the grid infrastructure from the solar panel power production.
