

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Laurence Defuria

Electric Utility Provider : FPL

Zip Code : 33060

Category : Power restoration time

Comments : Hurricane Irma knocked my power out at my single family house for 4 1/2 days. It was hot. It was not fun. I lost food and sleep I had roof and fence damage to contend with, also. Lots of yard and street debris. I KNEW that the FPL workers, along with the out of area contractors and volunteers, would work diligently and professionally around the clock to restore our power. They did and I want to publicly thank them for their work and effort. They need to be applauded instead of criticized by the legions of spoiled, rotten residents who expect others to stop them from ever being uncomfortable or inconvenienced. My fellow citizens need to grow up. They chose to live in a storm prone area and sometimes tough things happen. Our soldiers have it a lot worse so man up! Thank you to our utility workers. PS: I am retired but not from the utility industry.
