

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Leonard Nero

Electric Utility Provider : FPL

Zip Code : 33401

Category : Other

Comments : Private property vegetation allowed to grow in the power, phone and cable lines must be made a misdemeanor and right of ways regularly inspected (drone) and owners notified to clear prior to citation for willful negligence that adversely effects the health safety and welfare of all connected to the affected line(s). People die because of vegetation in the power line (utilities) right of way. Because of a vegetation caused neutral short we are slowly losing all the electric motors and appliances in our two residences. The AC capacitor just burnt out - again! Not doing anything is licensing a vandal to come into our homes and destroy personal property resulting in risk to the health of a cardiac distressed resident.
