

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Jeffrey Lafond

Electric Utility Provider : FPL

Zip Code : 32773

Category : Other

Comments : As usual We were last again in Sunland estates To get power 10 nights and 9 days About same as charlie. Some think FPL are hero's from who i spoke with here there Zero's. Thank god for the out of state help i talked with three different crews from Ma. and Conn. They all did agree on one thing they could not believe how neglected our grids were on maintenance how much the overgrown tree's and branches into lines were. of course it took them a week to even get to our neighborhood no fault of there's. I for years have come home on a beautiful day to find all my clocks blinking or watching TV in the evening a quick flash and my cable box is rebooting without a cloud in the sky this is totally unacceptable. I may not be in the fanciest neighborhood but, do take pride in what I have and take care of it. Next they will want a Rate Increase And whoever approves that should be fired, Voted out or whatever is appropriate of that position held. Same for all these insurance Co. good till used.!!!
