

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : John Stanic

Electric Utility Provider : Florida Power & Light

Zip Code : 33328

Category : Power restoration time

Comments : I've heard FP&L ads state they have spent billions\$\$ on "hardening" their power grid. that is either blatantly false or money wasted (or embezzled?).

I read broward county had MAX gusts (not sustained winds)of 100 mph. for my neighborhood to be without power for 4 days for a Cat 1 hurricane (Broward) is ridiculous. I shudder to think how bad the restoration would be if we had the Cat 5 hit this area.

is their consideration for burying the power lines from the substations?
