Comments : Enough with so called hurricane increases ! FPL has been raking in millions over the years on the backs of consumers. Launching a new app and "mother nature" are poor excuses. Where are the Millions going ? where is the accountability? Over the past 17 years since the 2004 hurricanes where is the infrastructure improvements? the same old wooden poles exist throughout. Inferior, antiquated transformers with no new technology to prevent outages. Fpl does not deserve a penny in increases until it proves the monies are being put to improving the grid period !!!
