

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Marian Pomeroy

Electric Utility Provider : FPL

Zip Code : 34239

Category : Power restoration time

Comments : I live within blocks of an FPL transmission station. The street next to it had power restored soon, but one street away, we were without power for 5 days. The beaches (which were supposed to be evacuated) had power restored within HOURS. All areas with buried power lines did extremely well. It is past time for FPL to bury power lines to keep the grid intact. We continue to pay for new facilities and surcharges but do not get better service.
