DOCKET # 20170150-EI

To Whom It May Concern:

I object to FPU's proposed electric rate increase in the strongest way possible. Marianna/Jackson County is an economically distressed community losing jobs, population, school students, etc. To approve a rate increase for FPU when we are already paying some of the highest rates in the State of Florida is irresponsible to say the least!

Thank you for your consideration regarding this request.

Sincerely,

Joseph U. Richey
