Docket No : 20170215-EU

Electric Utility Provider : EM873 - Ocala Electric Utility

Category : Power restoration time

Comments : My power was off 6 days and I became very sick from the heat as I am 76 with breathing problems. Not once did any of us see a power truck or worker until day 5. I saw two men walking through the back. I asked when our power would be restored and one of them said "we removed 2 limbs that were preventing it". That was what it took and they still didn't turn it on until the next day.
