Comments : Why is it that the utilities feel like they should be able to pass on the costs of the hurricanes to the people? The PEOPLE who lost and had damage can't pass on their costs to anyone. We had to PLAN IN ADVANCE for such occurrences.

The answer to everything isn't "raise our fees". Sometimes you take a loss. There hasn't been a major occurrence of this type since Hurricane Charley in 2004. You mean to tell me that in 13 years they couldn't prepare for such an event?
