Subject: Proposed FPL Irma Increase

I'm emailing you to provide my comments on the proposed FPL increase in response to Hurricane Irma.

I believe that this increase is designed to maintain FPL's stock dividends. FPL's latest stock dividend was 10.75% according to dividend.com.

Thousands, if not 10s of thousands of FPL's customers are having to swallow their insurance deductibles and can ill afford any utility increases. Especially those on a fixed income.

The extra \$4 a month is inconsequential to me, but I object in principle to the company continuing these kind of dividends and asking for an increase. Stockholders are the owners of the company and should assume the risk and cost.

Thank you for your attention,
Ken Lippincott
