Since 2008 we have been paying a mandatory assessment that is air marked for electrical improvements in Florida. We have just suffered another hurricane in 2017 (Irma) and we did not see an improvement in our area, we were without light for 8 days. We were the only high-rise in our area that was without electricity. Something needs to be done regarding restoring electric to high-rise that depend on electricity for the use of the elevators to and from there homes.
