FP&L should not be allowed to raise our rates!

Here's why:

1 Our rates have gone up too much already.

2 Smart meters were a wast of tax payer monies. They have been proven to be dangerous (can cause cancer) and are not better than the analog meters we were forced to change out. Big corporations lie!

3 For years, rates have increased and we have not had hurricanes. So now we have to pay 💰 go figure?

4 It's about time our elected officials could stand up and represent the people. Not the lobbyist and big business.

We watching you and the job you do!!!

5 Just say NO!
