**CONSUMER COMMENTS**

Before an company owner makes an equipment decision he or she usually does an **Economic Investigation** and looks at **COSTS vs. SAVINGS** and the resultant **CASH FLOW ANALYSIS** of the investment. By doing this what will the realized added earnings be? And will this added earnings be passed on to the customer in the form of a price reduction or should it be held as profit for the owner or investors? Pluris does not need to do any analysis the trapped customer will pay for it.

It is respectfully requested that you the Public Service Commission do the right thing and help us here in Wedgefield by denying the requested rate increase.

Thank you for the opportunity to comment,
