FPL should pay for this clean up, not the general public, top 6 FPL executives earned \$40 million combined in 2016. Have them shave their compensation and amortize this cost amongst themselves.

Sincerely
Ignacio Jimenez

Subject: Turkey point

FPL made the mess. It's their responsibility to clean it up not the customers.

We, the customers, are tired of paying for everything FPL does...use part of your profits to clean up your problems!!!

Public Service Commission Members:

We customers, the Public, should NOT shoulder the costs for this clean up. Let FPL reduce its shareholder dividends or other means as any other for profit/dividend paying company must shoulder the costs of doing business.

FPL needs the dip into profits, rather than pass the \$200 million cleaning fee onto customers.

Please don't put corporate profit above citizens.

Corporations were created to add value to society - not to pollute our environment and ask citizens to pay for it.

Sincerely,
Zena Tucker

Subject: FPL Turkey Point Clean Up

Dear Public Service Commissioners,

I am writing to express my displeasure with FPL wanting to charge me, a customer, for the \$200 Million Turkey Point clean up. FPL knew or should have known as early as 1978 that the operation of the cleaning canals at Turkey Point plant was creating a hyper-saline plume that was polluting the Biscayne aquifer according to the Southern Alliance for Clean Energy. The Office of Public Counsel states FPL's 1972 federal permit to operate cooling canals makes it clear that FPL bears the responsibility to insure the canals are working properly.

Miami-Dade regulators found elevated levels of tritium, a radioactive tracer, in Biscayne Bay and nearby monitoring wells. The state has ordered FPL to clean up the canals and stop the leaks.

It is clear that FPL is at fault and knowingly violated the Clean Water Act. FPL should not be able to pass on the price of their negligence to me and the rest of its customers.

Thank you,

Bradley Burtner

NOOOO,..FPL customers should NOT charge back their customers for clean up of THEIR mess at turkey point!!!! This is so outrageous! We pay enormous fees for their services, they profit privately millions of \$ and why should we responsible for their cleanup?? Every time I read about FPL wanting to hold their customers responsible for their costs for either cleanup or expansion, or whatever it infuriates us! Nobody helps my little business when the hurricanes shut me down thanks to the FPL outages!! Or when the market is slow!! Or I need an infusion of money to build it. Why should they??? Their share holders are making the money while their customers are drowning in their fees!
Thank you for taking my opinion into account when making this decision!

Subject: I will NOT pay for FPL clean up

If you are truly a PUBLIC SERVICE commission then you will **not saddle the public with a \$200 million bill** for clean up of FPL's salt plume into Biscayne Bay. You are charged with ensuring that we the citizens of Florida receive water in **SAFE, REASONABLE, AND RELIABLE MANNER:**
SAFE= clean up the salt plume from where we get our drinking water
REASONABLE= \$200 million dollars is not reasonable use of our tax dollars
RELIABLE= we rely on you to serve and protect us- the public- not the shareholders of FPL

My husband and I strongly object to citizens having to foot the bill for FPL's negligence in maintaining their facility at Turkey Point.

Subject: FPL's latest outrage

To Whom It May Concern,

I propose holding a special election which gives the consumers here in South Florida two simple choices : Either FPL follows the law, and cleans up it's latest mess, or (better yet) we citizens pay to clean up the dangerous mess FPL has created through it's reckless greed, and we then shut down the Turkey Point Nuclear Plant BEFORE tens of thousands of people are hurt.

Sincerely,
Alan Thomas
