Docket #20170007/FPL

Dear Sirs,

Once again F*** the People Light Co. wants to protect it's guaranteed 20% profit so that it's execs can be paid millions at the consumers expense. FPL needs to be held responsible, financially and environmentally, for the results of it's operations and it's own operating expenses. It's not just nor justifiable for them to continue to soak the consumer for it's operating expenses. Please do not allow them to charge the consumer for cleaning up after themselves. Teach them a lesson by saying no and in the future they will be more careful and efficient.

Respectfully,
Daniel Reiste
