Re: Case docket no. 20170007

Dear Sir or Madam:

I write to state my agreement with the Office of Public Counsel and other parties opposing Florida Power & Light Co.'s effort to impose the cost of cleaning up Turkey Point nuclear facility's cooling canals which threaten Biscayne Bay and Miami-Dade County drinking water sources. This cost should be part of FPL's cost of doing business and could have been avoided or reduced by FPL had it properly dealt with the problem. FPL appears to want to impose all the risks inherent in conducting its business on its customers which it should not be permitted to do in this instance.

Sincerely,
W. Frank Greenleaf, retired
attorney
