

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name :

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 33467

Category : Other

Comments : I was without power for 24 hrs which was exactly the same as during Wilma. This year was a tropical storm, Wilma was cat 3. One was prior to hardening the other was after yet there was no difference at all.

Also, I do not understand why the consumer gets to pay for everything but the company doesn't lose profits. Does a large company hold reserves for disasters so that we do not get assessed for everything which occurs?
