Comments : i just got off the phone with a very nice guy named Forrest with that said I would be shocked if the PSC allowed Duke any additional money-as a Public traded stock with over 24 billion in assets why should any one have 2 pay for there error-\$60 million dollars as a back up for such a large company is a drop in the bucket , I do not feel that we should have 2 pay an additional \$60.00 a year -not only are they asking for the \$5.00 per customer but at what point does that Stop? years -??? Duke did not cover any of my loses -and as a paying customer I feel that they being Duke have to " eat this one"
