

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : William McCluney

Electric Utility Provider : E1802 - Florida Power & Light Company

Zip Code : 32920

Category : Other

Comments : Climate change includes global warming. Global warming fuels storms. We can expect stronger, more powerful, more frequent, and much more socially and economically expensive storms like tornadoes and hurricanes.

We can't afford more business-as-usual, and it's time to invest in a safer, more resilient power grid that includes more clean energy options like smarter better integrated smart grid with more solar and energy storage to provide power during outages. Our utilities can and must do better!
