

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Gary Higel

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 34286

Category : Other

Comments : One of the problems during storms of any magnitude be it tropical in nature or cold front induced is when tree limbs or the trees themselves make contact with power lines. It would go a long way if trees weren't allowed where they could come in contact with power lines, as this would alleviate the problems of power outages when these storms occur.
