

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : R M CHAPPERS

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 33062

Category : Power restoration time

Comments : I have heard about families that were able to use solar and batteries to generate power after the storm. This seems like the smart way. The utilities need more solar and batteries near our homes. Or make it easier for us to buy our own equipment and use it when the grid goes down, and be able to sell the overage to the power companys. Those kinds of technology should be used wherever they can to prepare for hurricanes. We need to make sure (FPL) is building the grid with modern technology and clean energy to make it more dependable, not just rebuilding the same old power lines that keep going down when we need them the most.
