

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Creed Dennis

Electric Utility Provider : EI806 - Tampa Electric Company

Zip Code : 33626

Category : Information provided by electric utility provider after the storm

Comments : I have heard from lots of people who had solar power that they could generate it after the storm came. I would really like it if our state looked into this and thought about the safety of our people restoring what they lost easily. We do live in a sunshine state and we do endure a lot of storms so wouldn't it be the smartest way? If not that then we should make it easy for people to access and make that choice for themselves. Not only that it is clean energy and we need to move in that direction. It is smart and modern. I think trying to fix the power lines time after time is quite ridiculous and we need to move in the right direction.
