

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name :

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 33436

Category : Power restoration time

Comments :

Hurricane Irma showed again how undependable the power grid is when a big storm hits. The use of a solar grid and battery storage is cost effective and will reduce or eliminate the power outage. The sun is free and will not burn out for at least 1000 years.
