

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Sally Cohen

Electric Utility Provider : E1802 - Florida Power & Light Company

Zip Code : 33496

Category : Other

Comments : Hurricane Irma showed again how undependable the power grid is when a big storm hits.

The utilities need to invest in more solar and batteries near our neighborhoods. Customers should be able easily to buy their own equipment and be able to use it when the grid goes down. Those kinds of technology should be used wherever they can to prepare for hurricanes. We need to make sure Florida Power & Light is building the grid with modern technology and clean energy to make it more dependable, not just rebuilding the same old power lines that keep going down when we need them the most.
