

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Carolyn Blice

Electric Utility Provider : EI801 - Duke Energy

Zip Code : 32751

Category : Other

Comments : I was terribly inconvenienced when Hurricane Irma paid a visit. It was no picnic being without power for a week. It seems that utilities need to do a lot more with solar energy and storage of energy produced by the sun. I actually have a solar array on my roof, but it was of little use due to the 2 way meter to Duke not functioning. I have since ordered Tesla back up batteries and should get them soon. Solar is the sensible way to produce energy.
