

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : maureen kowsky

Electric Utility Provider : EI801 - Duke Energy

Zip Code : 33770

Category : Power restoration time

Comments : It is past time that Duke and other utilities use alternative energy such as solar and batteries that restore power much sooner after storms. Ditto for families being able to have their own solar and batteries. They are cleaner and quicker. Also, it is past time for Duke energy to be charging customers for repair costs after a storm rather than letting their stockholders take a slight hit, esp. when they are not using alternative energy. Thank you.
