NOTICE

TO PROPERTY OWNERS REQUESTING SERVICE FROM UTILITIES, INC. OF FLORIDA March 8, 2018

On March 1, 2018, the Florida Public Service Commission approved tariffs for the gross-up of CIAC and Allowance for Funds Prudently Invested. The tariffs should be effective for connections made on or after the stamped approval date on the tariff sheets, which will be five days from the date of this notice. If you have any questions about these charges, please contact the utility at (866) 842-8432.

Gross-Up of Service Availability Charges and Contributed Property

Congress has passed, and the President has signed, the Tax Cuts and Jobs Act, effective January 1, 2018, which, among other things, removes the exemption from federal income taxes for contributions-in-aid-of-construction (“CIAC”). Upon the effective date of the utility’s tariff, the utility may gross-up cash service availability charges and property contributions in aid of construction in order to recover the federal and state corporate income taxes associated with those contributions.

Allowance for Funds Prudently Invested (“AFPI”) Charges

Pursuant to Commission Rules, an AFPI Charge is a mechanism designed to allow a utility the opportunity earn a fair rate of return on prudently constructed plan held for future use from customers who will be served by that plant. This one-time charge is assessed based on the date the future customer connects to the Utility’s system, as set forth below.
