Water County Selected: Seminole

COMPLAINT INFORMATION

Complaint: Other Complaint against Utilities, Inc. of Florida
Details:

My Complaint is that no business has the right to rise there rate and reduce there water pressure service when they are a monopoly in this area or any other area.

we have no choice of who we get our water from my rate has doubled and tripled its a said day when your water bill is more than your power bill by 50 - 100 dollars more than the power bill. I'm a businessman and don't have a problem with a 5-10-15 percent increase but a 100 to 200 percent increase its not like a gas station or a store or bank where you have choices you can go somewhere else with your money but we with Utilities, Inc are stuck with a monopoly on water and sewerage not only that they get this outrageous increase but with the president tax break there get that increase as well.

we in this area are researching to see which public officials voted for this increase and will make sure they are not elected again its the power of voting

Thank You
Joe Strickland
