Appendix B
2016 Residential Appliance Saturation Survey
Results by Member Cooperative

List of Tables in Appendix

ABOUT YOUR AIR HEATING SYSTEM

CONTROLS FOR AIR HEATING AND COOLING

ABOUT YOUR WATER HEATER

ELECTRONICS, APPLIANCES AND MISCELLANEOUS EQUIPMENT

INDOOR LIGHTING

OUTDOOR LIGHTING

ABOUT YOUR ENERGY CONSERVATION IMPROVEMENTS

SOLAR ELECTRICITY/SOLAR THERMAL (WATER)

ABOUT YOUR HOUSEHOLD OCCUPANTS

WEATHER NORMALIZED ANNUAL KWH

NEIGHBORHOOD DATA FROM THE AMERICAN COMMUNITY SURVEY

Table B1. **Is the service address, that you're completing the survey for, a residential dwelling, a non-residential building, both residential and non-residential or neither (no building)?**
By Electric Cooperative

Item	[a] Clay	[b] Central Florida	[c] Glades	[d] Peace River	[e] SECO	[f] Suwan-nee Valley	[g] Tri-County	[h] Talquin	[i] Withla-coochee River	Total
Estimate (Percent)										
Residential building	97.4[befgi]	100.0[acdefghi]	96.7[bfg]	97.5[befgi]	99.2[abdfgh]	93.9[abcdehi]	93.5[abcdehi]	96.6[befgi]	99.0[abdfgh]	98.2
Non-residential building	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Both residential and non-residential	2.6[befgi]	0.0[acdefghi]	3.3[bfg]	2.5[befgi]	0.8[abdfgh]	6.1[abcdehi]	6.5[abcdehi]	3.4[befgi]	1.0[abdfgh]	1.8
None of the above	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Total	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Sample										
Residential building	1,968	1	632	2,656	2,149	1,408	603	1,179	2,628	13,224
Non-residential building	0	0	0	0	0	0	0	0	0	0
Both residential and non-residential	52	0	21	56	15	89	45	38	23	339
None of the above	0	0	0	0	0	0	0	0	0	0
Total Respondents	2,020	1	653	2,712	2,164	1,497	648	1,217	2,651	13,563
Nonresponse										
Nonrespondents	3	1,352	0	30	0	0	1	2	0	1,388
Legitimate Skip	0	0	0	0	0	0	0	0	0	0
Total Sample	2,023	1,353	653	2,742	2,164	1,497	649	1,219	2,651	14,951
Margin of Error (Percent)										
Residential building	0.6	0.0	1.8	0.6	0.4	1.1	1.9	0.9	0.3	0.2
Non-residential building	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Both residential and non-residential	0.6	0.0	1.8	0.6	0.4	1.1	1.9	0.9	0.3	0.2
None of the above	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

SECI000246

Table B2. What county is your home located in?
By Electric Cooperative

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

More than two	0.0	0.2	0.0	0.1	0.0	0.0	0.2	0.0	0.1	0.0

Note:

Respondents who indicated they do not have air cooling skipped this question.

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Respondents who indicated they do not have an air heating system skipped this question.

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Respondents who indicated they do not have a water heater skipped this question.

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

None of these	0.4	0.9	1.7	0.4	0.3	0.7	5.4	0.7	0.2	0.2

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Don't know	1.2	1.4	2.3	1.2	1.3	1.5	7.9	1.5	1.1	0.6

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

No past/present plans	2.1	2.7	5.5	1.9	2.0	2.6	5.5	2.7	2.0	1.0

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Currently in the process of installing a system	3.2	9.2	3.8	2.1	4.2	3.0	4.8	3.8	2.7	1.6
None of these	7.9	10.4	9.6	5.9	7.9	8.9	10.5	15.5	8.1	3.8
Other (Specify):	4.4	5.2	9.8	5.8	5.0	6.3	7.8	3.9	3.2	2.0

Note:

Respondents who indicated they are not planning on installing an additional solar system (or they did not know) skipped this question.

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Table B119. What are your reasons for not installing a solar energy system? (Select all that apply) [Question Q39] By Electric Cooperative

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

90% - 100%	0.0	0.0	2.3	0.0	0.0	0.0	0.0	0.5	0.0	0.0

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.

Note:

Percent estimates are weighted and computed among those who responded to the question.

A superscripted a, b, c, etc. indicates the estimate is significantly different from the estimate in column a, b, c, etc. at the .10 level of significance.

The margin of error is the 90% confidence interval half width. The 90% confidence interval associated with an estimate is the estimate plus/minus its half width.

Neighborhood data derived from census block group-, census tract- and zip code tabulation area-level estimates from the U.S. Census Bureau's 2010-2014 American Community Survey.
