Subject: The Perfect Business Model - DUKE Energy

The Perfect Business Model

It is so simple when you own the government.

A for profit corporation comes to your area and forces you to pay for the "plant" they will build and own, at a cost they determine, which will produce a "product" you are required to purchase, at a profit to the corporate owners agreed to by your government, and paying exorbitant amounts to its Officers, without your agreement. A 'Win-win" for everyone but the customer – the citizen.

We wonder why the Lobbyists who pay our Legislators what and how to think & vote are hiding these simple facts?
We need an elected Florida Public Service Commission, that services Floridians = NOW.

RE: FPSC Inquiry 1274938C

Dear Mr. Schultz

The Governor's office forwarded a copy of your E-mail regarding Duke Energy Florida (DEF) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service.

We appreciate your comments and will add your correspondence to Docket No. 20180084-EI, regarding DEF's petition for limited proceeding for approval to include in base rates the revenue requirement for the Citrus combined cycle project.

If you have any questions or concerns please call Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Randy Roland
Regulatory Program Administrator
Florida Public Service Commission
