Subject: Clermont FL water costs

Dear Commissioner

Recently our development of approximately 800 homes learned our golf course , The Legends in Clermont., was closing without any real outside interests to purchase the course . The reason for this beautiful golf course closing is mainly due to the high cost of water in Lake County which makes it too expensive to keep the course properly watered and maintained. The result of this closing is a huge drop in homeowners property values. Needless to say we have been trying to come up with a solution to this problem. Bottom line comes back to the water cost in Lake County Why is it that Lake County utilities charge so much more than our neighbor counties, Orange and Polk? Do you have any input to help us out? Thank you for your time

Sincerely

Diane Burmeister
