The first one is less than 1,000 sq ft and the second has unnecessary porches that are a waste of sq ft for us. I don't think either of these will work. Let me know your thoughts.

Greg,

See what you think about the ones below. They can be configured better onsite to meet your needs.

Michael,

I have a meeting with a homebuilder in North Carolina tomorrow. I'm having a hell of a time getting plans drawn for an office but here are a couple of ideas that we might work with if we can get them to ship a home with most of the interior walls missing. These are already approved to 180 miles an hour by Palm Harbor.

The Summer Cove II
Model 340LS28522F
Approx 1,387 Sq Ft.

- 26'8" x 52'
- 2 bedrooms, 2 baths
- Split Plan
- Standard Front and Rear Porches
- Large Eat-in Kitchen w/ Raised Bar
- Washer/Dryer Area w/ preps
- Opt. elevation w/ bump-out
