**RE: AT&T PS Contract ID. MIS1729533 AT&T MA Reference No. MA1662838UA**

Ms. Coffey,

I would like to cancel the current service that was installed less than 30 days ago. The service that was installed does not have the hardware that suits the business's needs. The circuit is a 50Mbps/50Mbps fiber service with a virtual modem. The virtual modem effectively prevents the business from using the service for voice. The fact that this service is not configurable for voice is a deal breaker. The ability to have phones on this service was clearly communicated to the AT&T sales representative, Carlos Ruiz, from the beginning. Because the current circuit is unable to handle voice data my business has not used the service and never will.

The Utility company needs an integrated solution; a single 20Mbps/20Mbps fiber service that can support voice and internet. The company would like to have 6 telephones on the 20Mbps/20Mbps fiber service. The telephone system itself doesn't need to be elaborate as the current system the company uses is comprised of six telephones; simple two line phones that were purchased at Office Max. The Utility will be contacting the phone specialist today to ascertain which system best suits the company's needs.

Because my company never used the existing fiber service, I am requesting a full refund. The refund should encompass the entire amount from installation of the 50Mbps fiber service up to termination of the service.

If AT&T can't meet the needs of my Utility company, the utility will use Comcast as their services have dramatically improved recently due all of the post Hurricane Irma infrastructure work they have done. It is unfortunate that AT&T wasn't able to satisfy our needs with the original install but I am confident, after speaking with Ms. Coffey that AT&T will work hard to win our business and get this right.

Sincerely yours,

Christopher A. Johnson  
President
