Subject: AT&T Fiber

I just got off the phone with a Ms. Bowers? who told me our ticket # OU040756 was closed due to AT&T testing on their side, the port is up and the AT&T equipment is positive - but there seems to be something possible wrong with the equipment on the customer's side. She said the notes there say to have the customer try their end. That's the update that I just received.
