Good morning, Mrs. Berkey,

The last DEP water testing was completed in 2015, so those should be the most recent test results. Testing for all contaminants is completed every three years, so the next sampling should be some time this year.

Thank you for keeping us updated,

2017 Water Quality Report for Orangeland Water Supply PWS ID# 651-1307

to present to you this year's Annual Water Quality Report. We want to keep you informed about the excellent water and services we deliver to past year. Our goal is and always has been, to provide you with a safe and dependable supply of drinking water. Our water is obtained from two draw from the Floridan Aquifer. The water is chlorinated for disinfection purposes. This report shows our water quality results and what they

Department of Environmental Protection performed a Source Water Assessment on our water system and a search of the data sources indicated no source of contamination near our wells. The assessment results are available on the FDEP Source Water Assessment and Protection Program website at <http://www.fl.us/swapp>.

Water Supply routinely monitors for contaminants in your drinking water according to Federal and State laws, rules, and regulations. Except and otherwise, this report is based on the results of our monitoring for the period of January 1 to December 31, 2017. Data obtained before 2017, and presented in this report are from the most recent testing done in accordance with the laws, rules, and regulations.

If you have any questions about this report or concerning your water utility, please contact Aqua Environmental Solutions, Inc. at (352) 848-5415. We value our valued customers to be informed about their water utility.
