Subject: Hearing scheduled for October 10,11 - Vero Beach sale to FPL

Dear Commissioners of the PSC:

My wife and I have been residents of Vero Beach for the past 18 years, and enjoy and love our community. The important issue you are scheduled to hear on October 10 and 11, is of vital importance to the 33 + thousand residents of our community. As you know this issue has been actively debated, voted upon, and been the basis for shaping the members of our city council for years. Essentially, should Vero Beach continue to purchase and provide electricity to it's residents – or – get out of the business and turn it over to a professional provider. The projected result will be a substantial savings to Vero's residents with the possibility of improved electrical service. This debated, twice confirmed by referendum, and many times basis for the election of council representation, should be enough. You at our PSC are pledged to Safe, Reasonable and Reliable utilities for Florida's residents. PLEASE reconfirm the approval to release Vero from the expensive alternative and allow FPL to assume the responsibility of providing our electrical service. Thank you, Sincerely Douglas Coffey, 1503 Ocean Drive, Vero Beach, FL 32963. Phone: 772 234 9918
