Ms. Smalley,

In regards to your questions about the Department of Health regulated Limited Use Wells, unfortunately, I was unable to find any information on these wells.

I apologize, and hope that you are able to find what you are looking for.

If there is anything else I can assist you with, please don't hesitate to let me know.

Thanks,

SC

The FPSC is asking for the permits for the above wells or any information you may have. When they were drilled, depth etc.

thank you,

Talquin Water Company, Inc. Well Inquiry Yahoo/Inbox

Carla,

Good morning,

Unfortunately, the FLUWID ID Tag numbers listed in your below email inquiry predate the well permitting database, which means I have no well permit or well completion report to provide to you or

to give you any information on when they were constructed. I do show at one time the wells were under a Consumptive Use Permit, as described below and is now closed. The only other

information the District has is in the original Consumptive Use application documents and technical staff reports for Consumptive Use Permit #5325-1. This information can be found at the below link.

My only other suggestion would be to call John Pope with DEP who monitors these wells for Public Consumption. John Pope's number is (850) 595-0633. I am also cc him on this email.

Thanks

Lyn
