In re: Duke Energy Florida, LLC's Petition for a limited proceeding to approve first solar base rate adjustment

Docket No. 20180149-EI

Filed: August 24, 2018

DUKE ENERGY FLORIDA, LLC'S PETITION TO APPROVE A MULTI-YEAR BASE RATE INCREASE AND A BASE RATE ADJUSTMENT FOR THE HAMILTON SOLAR POWER PLANT

Duke Energy Florida, LLC ("DEF"), pursuant to Sections 366.076(1) and 366.06(3), Florida Statutes ("F.S."), Rule 28-106.201, Florida Administrative Code ("F.A.C."), and the 2017 Second Revised and Restated Settlement Agreement approved by the Florida Public Service Commission ("Commission") in Order No. PSC-2017-0451-AS-EU¹ (the "2017 Settlement"), hereby petitions the Florida Public Service Commission ("FPSC" or the "Commission") to approve DEF's multi-year base rate increase as well as a base rate adjustment for the Hamilton Solar Power Plant. Specifically, pursuant to Paragraph 12.b. and 12.c. of the 2017 Settlement, DEF is requesting approval of tariff changes for the multi-year rate increase effective January 2019. In addition, pursuant to Paragraph 15 of the 2017 Settlement, DEF may request approval from the Commission, for cost recovery, for up to 350 MW of solar generation in 2019.

Previously in this docket, DEF filed a Petition for a limited proceeding to approve the Hamilton Solar Power Plant ("Hamilton Project") for rate recovery pursuant to Paragraph 15 of the 2017 Settlement². The Hamilton Project is expected to go into service in late 2018. DEF provided an estimated residential base rate impact for the Hamilton Project in the testimony of

¹ Docket No. 20170183-EI, issued on November 20, 2017.

² That petition also included a request to approve the revenue requirements of the Columbia Solar Power Plant. The instant Petition focuses only on the Hamilton Project, because that is the only project that will be eligible for inclusion in customer rates effective with the January 2019 bills.

Marcia Olivier filed on July 31, 2018, and explained that tariff sheets would be submitted for Commission confirmation before August 31, 2018. DEF also explained that tariff sheets for the multi-year base rate increase authorized by Paragraph 12(b) of the 2017 Settlement would be filed in August 2018. For efficiency, DEF is submitting this Petition, along with the supporting Supplemental Direct Testimony of Marcia Olivier, for both the Hamilton Project and the multi-year base rate increase.

In support of this Petition, DEF states:

Introduction

1. DEF is a Florida limited liability company with headquarters at 299 1st Avenue North, St. Petersburg, Florida 33701. DEF is an investor-owned utility operating under the jurisdiction of this Commission pursuant to the provisions of Chapter 366, Florida Statutes, and is a wholly-owned subsidiary of Duke Energy Corporation. DEF provides generation, transmission, and distribution service to approximately 1.8 million retail customers in Florida.

2. Any pleading, motion, notice, order, or other document required to be served upon DEF or filed by any party to this proceeding should be served upon the following individuals:

3. This Petition is being filed consistent with Rule 28-106.201, F.A.C. The agency affected is the Florida Public Service Commission, located at 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399. This case does not involve reversal or modification of an agency decision or an agency's proposed action. Therefore, subparagraph (c) and portions of

subparagraphs (b), (e), (f), and (g) of subsection (2) of that rule are not applicable to this Petition. In compliance with subparagraph (d), DEF states that it is not known at this time which, if any, of the issues of material fact set forth in the body of this Petition may be disputed by any others who may plan to participate in this proceeding.

2017 Settlement Requirements

4. Paragraphs 12.b. and 12.c. of the 2017 Settlement authorizes the Company to seek Commission approval for a base rate revenue increase that will not be a vehicle for a “rate case” type inquiry concerning the expenses, investment, or financial results of the operations of the Company and shall not apply any form of earnings test or measure or consider previous or current base rate earnings.

5. Paragraph 15 of the 2017 Settlement authorizes the Company to seek Commission approval of cost recovery for up to 350 MW of solar generation in 2019. The cost of the solar projects subject to Paragraph 15.a. of the 2017 Settlement shall be reasonable and cost effective, and the average cost of all projects submitted in a particular filing shall not exceed \$1,650 per kilowatt alternating current (“kWac”).

Multi-year Base Rate Increase

6. As approved by Order No. PSC-2017-0451-AS-EU, DEF is seeking Commission approval of a \$55.1 million total increase in base rates effective the first billing cycle of January 2019. The calculation method of the base rate increase is explained in Paragraphs 12.b. and 12.c. of the 2017 Settlement and more fully explained in the supplemental direct testimony and exhibits of Marcia Olivier, filed simultaneously with and incorporated by reference into this Petition.

Hamilton Solar Project

7. On July 31, 2018, DEF filed a Petition for approval of the Hamilton Project, but DEF did not include tariff sheets to reflect the rate increase for the Hamilton Project. Instead, DEF stated in the Petition that it would file tariff sheets in August 2018 to reflect both the Hamilton Project and the multi-year rate increase.

8. As explained further in the supplemental direct testimony of Marcia Olivier, filed simultaneously with and incorporated by reference into this Petition, DEF is filing tariff sheets to reflect both increases. DEF has combined several rate increases into one tariff sheet filing to smooth the rate impact to customers and to avoid the potential confusion of competing/multiple tariff sheets.

Effective Date of Requested Changes

9. DEF respectfully requests that it be allowed to increase base rates to reflect both the revenue requirements for the Hamilton Project and the multi-year increase effective with the first billing cycle of January 2019. Clean and legislative tariff sheets, Exhibit No. ___ (MO-3) and ___ (MO-4), incorporated by reference into this Petition, reflect both the rate increase for the Hamilton Project and the multi-year rate increase authorized by Paragraph 12.b. of the 2017 Settlement. DEF notes that the tariff sheets also reflect the rate increases for the Citrus Combined Cycle Project approved by the Commission in Docket No. 20180084-EI. DEF is combining these rate increases into one tariff sheet filing to smooth the rate impact to customers and avoid the potential confusion of competing/multiple tariff sheets. Finally, DEF has also removed the Budget Billing Plan language from tariff sheet no. 6.121, given that the Commission approved the addition of the same language to DEF's general rules and regulations section of its tariff on July 30, 2018 in Docket No. 20180123-EI.

10. Given that the Commission's schedule may not permit the final decision in this matter to be rendered before the requested effective date of the tariff changes, DEF respectfully requests that the Commission treat this tariff filing under Section 366.06(3), Florida Statute's "file and suspend" provisions and allow the rates for the Hamilton Project to go into effect with the first billing cycle of January 2019, subject to refund, pending the final decision. If the commercial in-service date of the Hamilton Project is delayed, then the tariff would become effective with the first billing cycle after the Hamilton Project is placed in commercial service.

11. As reflected in Ms. Olivier's Exhibit No. ___ (MO-2), attached to this Petition, DEF has presented various scenarios in the event that both the Citrus Unit 2 or the Hamilton Project is delayed. Accordingly, DEF respectfully requests the Commission to give Staff administrative approval rights to approve a different tariff if, for example, both or either of the units does not come on line in time for inclusion on January 2019 bills.

Conclusion

WHEREFORE, DEF respectfully requests that the Commission enter an order approving the tariff sheets associated with the Hamilton Project and the multi-year rate increase, and provide its Staff authority to administratively approve different tariff sheets if the Hamilton Project or the Citrus Project is not placed in commercial service to be included in January 2019 bills.

Respectfully submitted,

s/Dianne M. Triplett

**IN RE: DUKE ENERGY FLORIDA, LLC'S PETITION FOR A LIMITED
PROCEEDING TO APPROVE FIRST SOLAR BASE RATE ADJUSTMENT**

FPSC DOCKET NO. 20180149-EI

SUPPLEMENTAL DIRECT TESTIMONY OF MARCIA OLIVIER

AUGUST 24, 2018

1 **Q. Please state your name.**

2 A. My name is Marcia Olivier.

3

4 **Q. Have you previously filed testimony in this docket?**

5 A. Yes, on July 31, 2018, I filed direct testimony in support of Duke Energy Florida,
6 LLC's ("DEF" or the "Company") filing of its request for approval of its first solar
7 base rate adjustment.

8

9 **Q. Have your job position, duties and/or responsibilities changed since you filed**
10 **your direct testimony?**

11 A. No, they have not.

12

13 **Q. What is the purpose of your supplemental direct testimony?**

14 A. The purpose of my supplemental direct testimony is to sponsor exhibits to explain
15 calculations for the uniform percentage increase, and base rate customer, demand and
16 energy factors for DEF's first solar project (the Hamilton Project described in my
17 July 31, 2018 Direct Testimony) and the multi-year rate increase authorized by

1 Paragraph 12 of the 2017 Revised and Restated Settlement Agreement (“2017
2 Settlement”). I also explain and present the tariff sheets that reflect both the
3 Hamilton Project and the multi-year base rate increase. In addition, I provide a
4 summary of tariff changes, presenting multiple scenarios of the combined impacts to
5 customer rates. My testimony and exhibits also include the impact of the base rate
6 increase for Citrus Units 1 and 2, which were approved by this Commission in
7 Docket No. 20180084-EI.

8

9 **Q. Have you prepared, or caused to be prepared under your direction, supervision,
10 or control, exhibits in this proceeding?**

11 A. Yes. I am sponsoring the following exhibits:

12 Exhibit No. ___ (MO-2), “Uniform Percentage Increase and Summary of Tariff
13 Changes;”

14 Exhibit No. ___ (MO-3), “Redline Tariff Sheets Reflecting Hamilton Project and
15 Multi-Year Increases;” and

16 Exhibit No. ___ (MO-4), “Clean Tariff Sheets Reflecting Hamilton Project and Multi-
17 Year Increases.”

18 Note that Exhibit No. ___(MO-3) and Exhibit No. ___ (MO-4) do not bear exhibit labels
19 since they are tariff sheets. These exhibits are true and accurate.

20

21 **Q. Please explain why your testimony includes details about several different
22 expected rate increases.**

1 A. As I indicated in my July 31, 2018 Direct Testimony, DEF has several expected base
2 rate increases that will go into effect with the January 2019 billing cycle. Those
3 changes include the base rate increase approved by the Commission in Docket No.
4 20180084-EI for the second Citrus County Combined Cycle Power Block (“Citrus
5 Unit 2”), the multi-year increase authorized by Paragraphs 12.b. and 12.c. of the 2017
6 Settlement, and the Hamilton Project. However, two of those expected rate increases,
7 the Citrus Unit 2 and the Hamilton Project, are contingent upon DEF placing units
8 into service in time for inclusion in the first billing cycle of January 2019. DEF has
9 combined several rate increases into one tariff sheet filing to smooth the rate impact
10 to customers and to avoid the potential confusion of competing/multiple tariff sheets.

11

12 **Q. What happens if either the Citrus Unit 2 or the Hamilton Project is delayed such**
13 **that they cannot be placed into rates with the January 2019 bills?**

14 A. DEF would remove the portion of the tariff sheet change that is related to the charges
15 for that particular unit, if it were not placed in service in time for inclusion on January
16 2019 bills, and request Commission Staff administrative approval for the tariff sheets.
17 DEF would then notify Commission Staff when the unit(s) is placed in service and
18 request administrative approval of the new tariff sheets at that later point, to become
19 effective with the first billing cycle the month after the unit is placed into service.

20

21 **Q. How will the Commission Staff be able to confirm the accuracy of the tariff sheet**
22 **changes, if the in-service date for either the Citrus Unit 2 or the Hamilton**
23 **Project is delayed?**

1 A. I have presented detailed information in my Exhibit No. __ (MO-2), specifically
2 pages 4-8, to present the various scenarios in the event that both or either of the two
3 units is delayed. Column (C) on pages 4-8 shows the tariff rates that will be in effect
4 in November after the Citrus Unit 1 base rate increase, just before including any
5 increases in 2019. Column (E) presents the tariff rate if only the Citrus Units 1 and 2
6 rates were added. Column (I) shows the rates if all three rate increases are effective
7 (i.e. both Citrus units, the Hamilton Project, and the multi-year increase). The
8 legislative and clean tariff sheets that I have included as my Exhibit Nos. __ (MO-3)
9 and __ (MO-4) include the rate information found in Column (I). Columns (J)
10 through (L) on pages 4-8 of my Exhibit No. __ (MO-2) present the rates under
11 various scenarios in which Citrus Unit 2 and/or the Hamilton Project are not included
12 in the January 2019 base rate increase. Using this information, Commission Staff
13 should be able to respond to any changes, if necessary, to the tariff sheets if DEF is
14 unable to bring the Citrus Unit 2 and/or the Hamilton Project on-line in time for
15 inclusion on January 2019 bills. Collectively, by combining the rate increases into
16 one tariff sheet filing, DEF expects to promote efficiency, avoid the confusion of
17 multiple tariff sheets, and encourage a smooth rate impact to customers.

18

19 Q. **How did DEF calculate the multi-year rate increase?**

20 A. DEF calculated the multi-year rate increase consistent with the 2017 Settlement.
21 Paragraph 12.b. of the 2017 Settlement states: “Effective with the first billing cycle
22 for January 2019, DEF will be allowed a multi-year increase to its base rates as
23 reflected in the chart below...” The chart, for 2019, permits an increase of \$50

1 million using one method of uniform percentage increase, and an increase of \$17
2 million using a second uniform percentage increase method. Method (1) provides:
3 “Amount to be recovered through a uniform percent increase to the customer,
4 demand, and energy base rate charges for all retail customer classes, but, consistent
5 with Paragraph 21, the delivery voltage credits and IS/CS/GSLM-2 credits shall not
6 be adjusted.” Method (2) provides: “Amount to be recovered through a uniform
7 percent increase to customer charges for all retail rate classes except the interruptible
8 and curtailable rate classes.” Consistent with Paragraph 12.c. and Exhibit 6 of the
9 2017 Settlement, DEF has adjusted these amounts to reflect the new lower federal
10 income tax rate resulting from the 2017 Tax Cuts and Jobs Act. My Exhibit No. __
11 (MO-2), page 1 of 8, provides the calculation details for the \$41.1 million base rate
12 increase (using Method 1) and page 2 of 8 provides the details for the \$14.0 million
13 base rate increase (using Method 2).

14

15 **Q. What are the revenue requirements for the Hamilton Project?**

16 A. As I discussed in my July 31, 2018 Direct Testimony, the annualized revenue
17 requirements of the Hamilton Project is \$15.2 million.

18

19 **Q. How did DEF calculate the percentage increase on customer bills associated with
20 the Hamilton Project revenue requirements?**

21 A. DEF calculated the base rate adjustment associated with the Hamilton Project revenue
22 requirements consistent with Paragraph 15.e. of the 2017 Settlement, which states,
23 “Each base rate adjustment allowed by or implemented pursuant to this Paragraph is

1 to be reflected on DEF's customer bills by increasing customer demand and energy
2 base rate charges by an equal percentage contemporaneously; however, consistent
3 with Paragraph 21, the delivery voltage credits and IS/CS/GSLM-2 credits shall not
4 be adjusted. The calculations of the percentage change in rates will be based on the
5 ratio of (i) the forecasted jurisdictional Annualized Base Revenue Requirement for
6 the solar project(s) covered by any single base rate increase to (ii) the forecasted retail
7 base revenues from the sales of electricity during the first twelve months of operation.
8 The forecasted retail base revenues from the sales of electricity during the first twelve
9 months of operation will be based upon DEF's billing determinants for the first 12
10 months following such project's commercial in-service date, where such sales
11 forecast is that used in DEF's then-most-current CCR Clause filings with the
12 Commission, including, to the extent necessary, projections of such billing
13 determinants into a subsequent calendar year so as to cover the same 12 months as the
14 first 12 months of each such solar project's operation. DEF shall be authorized to
15 begin applying the base rate charges for each adjustment authorized by this Paragraph
16 to meter readings beginning with the first billing cycle on or after the commercial in-
17 service date of that solar generation project.”

18

19 **Q. Has DEF calculated the solar base rate adjustment factor consistent with the**
20 **2017 Settlement?**

21 A. Yes. As shown in my Exhibit No. __ (MO-2), page 3 of 8, DEF has calculated the
22 solar base rate customer, demand, and energy factors for each rate class, consistent

1 with the 2017 Settlement. DEF utilized the same sales forecast as that utilized in
2 DEF's August 24, 2018 projection filing in the CCR Clause.

3

4 **Q. What is the estimated residential base rate impact of the Hamilton Project?**

5 A. The estimated residential base rate impact is approximately \$0.46 on a 1,000 kWh
6 bill.

7

8 **Q. Have you provided tariff sheets to demonstrate the impact of the Hamilton
9 Project and the multi-year base rate increase?**

10 A. Yes, my Exhibits No. __ (MO-3) and __ (MO-4) include the clean and
11 legislative/redline versions of the tariff sheets impacted by the Hamilton Project and
12 the multi-year base rate increase, as well as the Citrus Unit 2 base rate increase
13 approved in Docket No. 20180084-EI.

14

15 **Q. Does that conclude your testimony?**

16 A. Yes.

ISSUED BY: Javier J. Portuondo, Managing Director Rates & Regulatory Strategy – FL

EFFECTIVE: ~~January 1, 2019~~ October 1, 2018

**RATE SCHEDULE RS-1
 RESIDENTIAL SERVICE**
 (Continued from Page No. 1)

Minimum Monthly Bill:

The Minimum Monthly Bill shall be the Customer Charge.

Terms of Payment:

Bills rendered hereunder are payable within the time limit specified on bill at company-designated locations.

Term of Service:

From billing period to billing period, until receipt of notice by the Company from the customer to disconnect, or upon disconnect by the Company under Florida Public Service Commission or Company rules.

Budget Billing Plan (Optional):

~~A customer may elect to be billed for service hereunder by an alternative billing plan called the "Budget Billing Plan." This billing plan provides for payments on an averaged monthly installment basis rather than payments on an actual monthly usage basis.~~

~~Under the Budget Billing Plan, the monthly billing is determined as follows:~~

- ~~1. The Annual Base Amount is calculated using the most recent twelve (12) months' billings for the premise and then averaged and rounded to the nearest whole dollar (Monthly Budget Billing Amount). If the customer has not resided at the premise for twelve (12) months, the Annual Base Amount will be determined by the customer's available monthly billings plus the previous occupant's billings. If the premise is new, a twelve (12) month estimated billing would be used.~~
- ~~2. The Monthly Budget Billing Amount is recalculated every third month using the most recent Annual Base Amount plus any deferred balances (the difference in prior billings made under the Budget Billing Plan and that of actual charges).~~

$$\begin{array}{rcccl}
 \text{Monthly Budget} & & & & \\
 \text{Billing Amount} & = & \frac{\text{12-Month Summation} & + & \text{Deferred} \\
 & & \text{Actual or Est. Annual Base} & & \text{Balance}}{12}
 \end{array}$$

~~_____ If the difference between the newly calculated Monthly Budget Billing Amount and the current Monthly Budget Billing Amount is greater than \$5 or 10%, then the Monthly Billing Amount will be re-established at the newly calculated amount (rounded to the nearest whole dollar).~~

- ~~3. At the customer's option (in lieu of carrying the deferred balance forward in the recalculation of the Monthly Budget Billing Amount) any deferred balance that is outstanding at the customer's annual review may be settled either through being applied to the customer's next bill (if a credit balance) or direct payment to the Company (if a debit balance).~~

~~A customer may request termination of the Budget Billing Plan at any time. The Company may terminate application of the Plan to any Customer whose balance due becomes sixty (60) days delinquent. Upon termination of the Plan or disconnection of service, the Customer must settle the account in full. Once the Customer has terminated, he or she may not rejoin the plan for twelve (12) months.~~
