#20170236-EU

PSC - docket #20170325-E6 +

To: office of Commission Clerk:

Am so tired of these delaying tactics to switch our electric service from Vero Beach Utilities to FPL.

We've been in Vero for 22 yrs. + have so disgusted at the rates we have had to pay to support the rich folks who live on the island!

Our bill comes in + the charge each month for "power purchase" is usually more than the cost of the service used.

We are a Community of Senior Citizens, most on a fixed income + just shudder when our power bills arrive.

The thing that bugs me most tho is we can NOT vote in the

City elections - This is so  
unfair, Taxation without  
representation -

Please excuse the messy writing.  
Fingers not as agile as use to be.

Please, Please let this sale  
go thru ASAP -

I love you,

Gladys Coultas
