Re: Duke Energy Florida, LLC Updated Nuclear Decommissioning Cost Study re.
Crystal River Unit 3; *Undocketed*

Dear Ms. Stauffer:

On September 10, 2018, Duke Energy Florida, LLC, (DEF) filed its Updated Site-Specific Decommissioning Cost Estimate for the Crystal River Unit 3 Nuclear Generating Plant, along with a revenue requirement calculation, pursuant to and in compliance with Rule 25-6.04365, F.A.C. DEF is writing to advise that while this filing had most of the elements of a complete study, a few things were omitted which are required by the above-mentioned rule, and it is therefore not intended to be a complete decommissioning cost study.

Please note DEF will file an update with any additional information (related to the 2018 study) on or before March 2022, as required by Rule 25-6.04365, F.A.C. Furthermore, if DEF conducts a new official study on or before March 2022, DEF will make a complete filing at that time.

Thank you for your assistance in this matter. If you have any questions, please feel free to contact me at (727) 820-4692.

Sincerely,

/s/ Dianne M. Triplett
