Comments:

Concerning Gulf Powers recent request for a 5 year \$8.21 "Storm Restoration Surcharge". I see this as nothing more than an attempt to make up for lost revenue due to the number of customers no longer receiving service, not so much as recovering hurricane related costs. Why should the rest of us have to make up the cost? Isn't Gulf Power required to carry some type of insurance to cover loses like this? Hurricanes are a part of living in Florida - it's why most of us have insurance to cover those costs. I, like many others, have a budget to stay within regardless of the circumstances, and a lot of us can't afford this increase. I hope the PSC sees this for what it is and, if not totally denying it, at least not approving the total amount requested. Thanks for your time.
