Dear Public Service Commission PSC,

As a Floridian age 50+, we are coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a limited or fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

We are new to Florida and before we moved here all of our living expenses were taken in consideration as to where we should move. Electricity Was one of our main focuses, when considering Florida we were a little unsure due to Florida's big push for all appliances, hot water heaters, heating systems etc. to be electric. If the rates are raised it would be a very serious hardship on us and I am sure MANY OTHER SENIOR CITIZENS!
