Dear Public Service Commission PSC,

As a Floridian age 72, my family is coping with rising healthcare, auto insurance, housing insurance and rising food costs with minimal increases in fixed income. Every year we lose more and more of our income to the mandatory cost of living expenses, and they are NOT small increases. An increase on our monthly power bill adds up for people, like myself, who are on a fixed income.

Increasing our rates will only make it harder for people to afford daily living necessities.

Florida Power and Light who purchased Gulf Power bragged that they would reduce Florida power rates. Now, the first action they take is to ask for an increase.

Respectfully request their request for an increase be denied.
