Dear Public Service Commission PSC,

As a Floridian age 50+, we are coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a limited or fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

As a retiree living on less than 1400 a month in pension and ssa income, I am very conservative with my electric power. In winter and deep summer it is a struggle now. This rate increase will cause an additional hardship in an already trying economic. Climate for the panhandle. Please don't do this to your citizenry.

Sincerely,

Ms. sherri stephens
