BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for approval of shared)
Solar tariff by Tampa Electric Company.)
_____)

DOCKET NO. 20180204-EI

FILED: February 15, 2019

**SECOND AMENDMENT TO PETITION OF TAMPA ELECTRIC COMPANY
FOR APPROVAL OF SHARED SOLAR TARIFF**

Tampa Electric Company (“Tampa Electric” or “the company”) pursuant to Section 366.04, Florida Statutes, files this its Second Amendment to the company’s Petition filed in this proceeding on November 2, 2018 as follows:

1. At Staff’s suggestion Tampa Electric has added the following clarifying sentence to its proposed Original Sheet No. 3.300 which accompanied Tampa Electric’s February 8, 2019 Amendment to Petition in this proceeding:

The fuel charge applies to the remainder of the monthly billing determinants.

2. The Original Sheet No. 3.300 that accompanied Tampa Electric’s February 8 Amendment to Petition was supplied in track change and clean versions as one of three tariff pages marked Exhibits “C” and “D”. Attached hereto are track change and clean versions of Original Sheet No. 3.300, revised to include the additional clarifying sentence requested by Staff. Tampa Electric requests that the attached revised versions of Original Sheet No. 3.300 be substituted in place of the versions of Original Sheet No. 3.300 that were included in Exhibits “C” and “D” to the February 8 Amendment to Petition.

3. All other aspects of the November 8, 2018 Petition and the February 8, 2019 Amendment to Petition not affected by this Second Amendment are hereby reaffirmed.

WHEREFORE, Tampa Electric submits the foregoing Second Amendment to its November 2, 2018 Petition in this proceeding and respectfully requests the Commission to substitute the attached versions of Original Sheet No. 3.300 in place of the corresponding tariff pages that were included in Exhibits "C" and "D" of the company's February 8 Amendment to Petition, and to approve the tariff sheets contained in those Exhibits "C" and "D" after having made the requested substitutions.

DATED this 15th day of February 2019.

Respectfully submitted,

JAMES D. BEASLEY

ATTORNEY

SHARED SOLAR RIDER

SCHEDULE: SSR – 1

AVAILABLE: At the option of the customer, available to residential, commercial and industrial customers per device (non-totalized or totalized electric meter) on rate schedules RS, GS, GSD and IS on a first come, first served basis subject to subscription availability. Not available to customers who take service under NM-1, RSVP-1, any standby service or time of use rate schedule. Subscription availability will be dependent on availability of Shared Solar facilities. Customers who apply when availability is closed will be placed on a waiting list until Shared Solar capacity becomes available. The initial Shared Solar facility will be for 17.5 MWac* capacity and full subscription will be when 95% of expected annual energy output has been subscribed.

APPLICABLE: Applicable, upon request, to eligible customers in conjunction with their standard rates and availability of service subject to subscription availability.

CHARACTER OF SERVICE: Shared Solar - 1 (SSR-1) enables customers to purchase monthly energy produced from Company-owned solar facilities for a selected percentage of that month's billed kWh. For RS and GS, individual subscriptions will be measured as a percentage of the monthly energy consumption as selected by the customer: 25%, 50% or 100% rounded up to the next highest kWh. For GSD and IS, a fixed kWh subscription in 1,000 kWh blocks will be identified by the customer not to exceed their average monthly kWh consumption for the previous 12-months at the time of subscription.

MONTHLY RATE: \$0.063 per kWh for monthly energy consumption.

The monthly SSR-1 rate, multiplied by the monthly energy consumption selected by the customer, will be charged to the customer in addition to the customer's normal cost of electricity pursuant to their RS, GS, GSD or IS tariff charges applied to their entire monthly billing determinants, with the exception of the Fuel Charge, which is normally billed under the applicable tariff. Tampa Electric will seek to maintain the SSR-1 energy rate at \$0.063 per kWh or lower until January 1, 2048, however the SSR-1 energy rate will remain subject to change by order of the Florida Public Service Commission.

Under SSR-1, the Fuel Charge for the applicable RS, GS, GSD, or IS tariff, for the monthly energy percentage or blocks selected by the customer, will be billed at a rate of \$0.00 per kWh provided under this rider. The Fuel Charge applies to the remainder of the monthly billing determinates.
