Dear Public Service Commission PSC,

As a Floridian age 50+, we are coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a limited or fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

Why should all the non-hurricane affected residents of Florida be held accountable for the money that GP lost during and after the hurricane. Sounds like very bad planning.

Sincerely,
Glenn Smith
